GENERAL LEAVE

Mr. COMER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and insert extraneous material on H.R. 347.

The SPEAKER pro tempore (Mr. MURPHY). Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 166 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 347.

The Chair appoints the gentlewoman from West Virginia (Mrs. MILLER) to preside over the Committee of the Whole.

□ 1725

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 347) to require the Executive Office of the President to provide an inflation estimate with respect to Executive orders with a significant effect on the annual gross budget, and for other purposes, with Mrs. MILLER of West Virginia in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

General debate shall be confined to the bill and shall not exceed 1 hour equally divided and controlled by the chair and ranking minority member of

the Committee on Oversight and Accountability, or their respective designees.

The gentleman from Kentucky (Mr. COMER) and the gentlewoman from Missouri (Ms. BUSH) each will control 30 minutes.

The Chair recognizes the gentleman from Kentucky (Mr. COMER).

Mr. COMER. Madam Chair, I yield myself such time as I may consume.

Madam Chair, I rise in support of H.R. 347, the Reduce Exacerbated Inflation Negatively Impacting the Nation Act, or REIN IN Act.

This legislation is timely and clearly needed. Sky-high inflation started sweeping across the Nation soon after the Biden administration came into power.

Pushing one big-spending policy after another, President Biden has continued to throw fuel on the inflationary fire. That fire is rapidly consuming the wages of our constituents. They have had to pay higher and higher prices for everything from eggs to electricity, all while inflation pushes their real wages further and further behind.

President Biden just does not seem to get it or admit it. At first, he and his administration ignored warnings his policies would spark inflation. Then, they tried to spin the tale that inflation was only temporary. Then, when it became obvious to everyone that was not the case, they attempted to claim that a monthly decrease in the rate of how fast inflation was rising meant inflation was actually falling, but anyone could see that made no sense.

It is long past time the President learned and admitted more about how his actions have led to this harmful inflation. That is why we need this bill.

The REIN IN Act ensures that costly actions the President decides to take solely under his own authority through executive orders will not go into effect until he is informed of and considers the potential inflationary effects.

How does the bill require that? Simple. It requires the President to receive and consider inflation estimates from the Office of Management and Budget and the Council of Economic Advisers for each executive order that is projected to cause an annual gross budgetary effect of at least \$1 billion.

The hope is the President, once he is informed of and understands the potential for inflationary harm from his own policy initiatives, will think twice about inflicting such harm. Here is hoping he does.

In addition, the bill requires regular reports to Congress on these new inflation estimates that are prepared for and considered by the President. That way, if the President ignores the dangers and marches ahead with an inflation-inducing policy, Congress will be better equipped to take timely action to rein in an irresponsible use of Presidential power.

That is our constitutional role in the legislative branch, which the REIN IN Act recognizes. This powerful legisla-

tive medicine will, I hope, lead the President to stop his inflationary onslaught on our economy.

Madam Chair, I urge all of my colleagues to support this vital legislation, and I reserve the balance of my time.

Ms. BUSH. Madam Chair, I yield myself such time as I may consume.

Madam Chair, St. Louis, House Democrats, and I rise today to strongly oppose H.R. 347, the Reduce Exacerbated Inflation Negatively Impacting the Nation Act.

While Democrats passed numerous laws last Congress that are successfully reducing inflation every month, House Republicans have come up with nothing more than a study in response. This is unbelievable.

The substance and process of this bill amount to nothing more than political theater to distract from and undermine the immense successes of congressional Democrats and the Biden administration.

□ 1730

If Republicans were serious about fighting inflation and cutting costs for regular, everyday people, they would have joined with Democrats to pass critical legislation like the Inflation Reduction Act to rebuild American manufacturing and lower the cost of prescription drugs, healthcare, energy, and other goods and services for the people of our country rather than pushing an extreme MAGA messaging bill that accomplishes nothing. Nothing. Not a thing.

The global spike in inflation has been caused by food and fuel disruptions resulting from the illegal and unprovoked Russian invasion of Ukraine, as well as auto part supply shortages connected to the COVID-19 pandemic. There is no evidence that government spending or executive orders by President Biden have increased inflation.

The President and congressional Democrats have taken steps to enact policies; not studies, not reports, but actual, tangible policies and dollars delivered to our communities to lower costs for regular, everyday people. Yet, we understand that still much more work remains.

For over 20 years, while I was a single mother of 2, I experienced countless times what it was like to see costs rise faster than my wages. I know what it is like to have to choose between paying the electric bill or paying rent.

I remember thinking to myself, who is it that is fighting for me and for other people in my situation?

Lawmakers in Congress can help alleviate that pain. Lawmakers in Congress can prioritize enacting policies to raise wages and lower costs, and that is what congressional Democrats have done.

For so many people in my community of St. Louis and around the country, skyrocketing rents and high utility costs are consistent barriers to
